## READY FOR ADVENTURE!

The VMS Touring Series navigates just as well in the outback as it does around town!

Ideal for touring the outback, the Touring Series features the iTOPO\* topographic mapping system and is complete with 4WD tracks, camp sites, caravan parks & other vital info so you can explore the most remote regions in complete confidence.

Street navigation uses 2009 Where IS mapping for Australia. Featuring spoken street names and easy to follow voice guidance the VMS Touring will get you safely and quickly to your destination.

With the VMS reverse camera package, the Touring 500 can also display up to 2 camera images automatically.\*\*

Designed in Australia, we believe that the Touring Series is the best GPS for touring & 4WDs!

\*Off road navigation & topo maps are optional. \*\*Optional camera trailer switch required for 2 cameras
